January 30, 2009

Dear Cathy,

We hope this letter finds you and your family in the best of health and spirits. I apologize for not writing sooner but the last almost year and a half has been very busy. I was actually looking through some of my old address books and came across your address.

We are doing really well. We moved to MA and spent ten months in a shelter. It was a much different experience than Pemi Bridge House. Then, after a lot of hard work and perseverance, we moved into a transitional apartment. I was able to complete a college course in Human Services and passed with an A.

The kids have settled in very well. Jarmyae is 7 (8 in April) and in second grade. Stephen is 5 and in preschool. We live in Malden, MA. The school system here has done wonders for both of them. They have grown so much and are some gorgeous children. I have enclosed photos of them. This year's school photos. Jarmyae still remembers you and misses spending time

with you. You really were a good friend to  
her.

I will most likely be going back to  
school (college) in the fall to continue to  
my BA in Social work. I am looking to work  
with the homeless. A classmate and good  
friend of mine and I are working  
diligently to open our own non-profit  
organization to work with teens in the  
community and the homeless as those at  
risk.

Well, I have to go and get the  
little ones ready for bed. We would love  
to hear back from you. Take Care and tell  
everyone @ Pemi that we say hello.

Sincerely,  
Angela Coffin and Family
